AUDITOR'S REPORT.

Kingston, N. H., March 2, 1892.

The above accounts of the selectmen and treasurer have been examined by us and found correctly cast and properly vouched

GEO. W. SANBORN, }
MOSES J. FRENCH, } Auditors.

ANNUAL REPORT
OF THE
BOARD OF EDUCATION
OF THE
TOWN OF KINGSTON, N. H.

In making their annual report, your school board desires to call attention to one or two things.

First, it will be noticed that there are only two members on the board, instead of three. Two new members were elected last year, but one of them, for some good reason, no doubt, declined to serve. We think that no person should be elected without being previously consulted. We wish also to call attention to a law passed by our state legislature last year, to encourage the establishing of free public libraries. A state board of library commissioners is appointed by the governor, which is "authorized and directed to expend upon the application of any town, having no free public library, owned and controlled by the town, a sum not exceeding one hundred dollars, for books, for such town entitled to the benefit of these provisions, such books to be used by the town, for the purpose of establishing a free public library; and the commissioners shall purchase all books to be so provided.

Any town accepting the provisions aforesaid, shall annually appropriate for the use and maintainance of its free public library, a sum not less than twenty-five dollars, if the valuation was less than one million and not less than two hundred and fifty thousand dollars, at last assessment." The benefit to be derived by any town from a library, stored with good books, is beyond question.

The schools have prospered during the year. By comparing the two reports, it will be found that a larger number of pupils have been in attendance this year than last. We have had 32 weeks of school, two weeks more than last year, giving two terms of 12 weeks each, and one of 8 weeks.

The teachers have worked earnestly and faithfully, and the closing examinations of the year, showed the beneficial results of their labors.

We believe that the hope expressed by the board in their report last year, that an improved standard of scholarship would be attained by the operation of the new text book law is beginning to be realized. There has been a falling-off in the roll of perfect attendance this year, but we attribute this, not to indifference on the part of parents, nor to lack of interest on the part of children, but to the sickness that prevailed during a part of the year. School No. 5 was closed three weeks on account of diphtheria, which resulted in the death of two of the pupils. The work of the schools has been very satisfactory. Eight of the pupils from our schools have entered the Seminary this year, and the work which they are doing will compare favorably with that of the average Seminary student.

Appended will be found an abstract from register, roll of perfect attendance, and treasurer's report.

C. E. CILLEY, }
D. W. MORGAN, } School Board.
